PROPOSED SERVICE

1. Name of Proposed Service

Real Name Verification

2. Technical description of Proposed Service. If additional information needs to be considered, attach one PDF file

In order to comply with local law and policies, .广东/佛山 Registry seeks to implement real-name verification (RNV) on relevant registration. Relevant registrations are those registration that would be abusive under our policies without RNV. (Eg. where a registration would be illegal without RNV.) This Registry Service Request applies to .广东/佛山.

RNV involves placing a relevant new domain name into "serverhold" status until the registry can verify that the WHOIS information provided by the registrant is correct. "Serverhold" status is removed once this information is verified. The "serverhold" status remains if the information is not verified.

CONSULTATION

3. Please describe with specificity your consultations with the community, experts and or others. What were the quantity, nature and content of the consultations?

We consulted with technical experts at many registry service providers, including multiple that have already implemented these services. All consultations were overwhelmingly positive.

3a. If the registry is a sponsored TLD, what were the nature and content of these consultations with the sponsored TLD community?

N/A

3b. Were consultations with gTLD registrars or the registrar constituency appropriate? Which registrars were consulted? What were the nature and content of the consultation?

We have already consulted registrars about this service. This was largely as part of our previous implementation the service with all relevant registrars. These registrars all deeply want us to have RNV up and running.

3c. Were consultations with other constituency groups appropriate? Which groups were consulted? What were the nature and content of these consultations?

No.

3d. Were consultations with end users appropriate? Which groups were consulted? What were the nature and content of these consultations?

No.

3e. Who would endorse the introduction of this service? What were the nature and content of these consultations?

Registrars and registrants that will be able to register .广东/.佛山 domain names because of the implementation of this service would endorse this service.

3f. Who would object the introduction of this service? What were (or would be) the nature and content of these consultations?

No party has any legitimate reason to object to the introduction of this service.
