Re: Support Applicant Review Panel's Determination for Application ID 1-2104-81541

Dear Mr. Katim Seringe Touray:

Thank you for your participation in the New gTLD Applicant Support Program.

The Support Applicant Review Panel (SARP) has completed its financial assistance review. This letter serves as your official notification from ICANN regarding the Panel's determination for application ID 1-2104-81541.

After careful consideration and extensive review performed against the criteria outlined in the New gTLD Financial Assistance Handbook, the SARP determined that your application did not meet the following minimum requirements to qualify for financial assistance:

Criteria 1: Public Interest Benefit

- Public interest benefit
- Service in under-served language
- Advocated by non-profit, civil society, or NGO (outside support)
- Operation by not-for-profit

Due to this determination, your application is ineligible for further review under the New gTLD Program and the evaluation fee amount of USD 47,000 will be refunded as stated in the Financial Assistance Handbook.

If you have any questions regarding this communication, please contact the Customer Service Center at newgtld@icann.org.

Sincerely,

Christine Willett
Vice President, gTLD Operations
