

ACCOUNTABILITY FRAMEWORK

This Accountability Framework ("AF") is between:

KAUNAS UNIVERSITY OF TECHNOLOGY, an organisation incorporated under the laws of the Republic of Lithuania, with its registered seat in Kaunas, Republic of Lithuania, that appointed its subdivision **INTERNET SERVICE CENTRE OF INFORMATION TECHNOLOGY DEPARTMENT** to administer .lt Top Level Domain, hereinafter referred to as "**DOMREG**",

And

THE INTERNET CORPORATION FOR ASSIGNED NAMES AND NUMBERS, hereinafter referred to as "**ICANN**",

jointly to be referred to as: **parties** and individually to be referred to as: **party**.

A. Recitals

1. The parties want to demonstrate their commitment to further enhancing the stability, security and interoperability of the Internet's Domain Name System (DNS) from a global perspective and for the benefit of the local and global Internet community in an evolutionary manner on the basis of a peer relationship.
2. The .lt Top Level Domain was initially delegated in 1992. Since 1996, DOMREG has served as the ccTLD Manager. DOMREG, is a subdivision of the public institution Kaunas University of Technology incorporated under the laws of the Republic of Lithuania and executes its operation in Lithuania.
3. DOMREG's functions regarding the stability and interoperability of the DNS are to:
 1. Maintain and keep maintained name servers for the .lt domain;
 2. Generate updates to .lt zone data when changes occur and propagate those changes to all public authoritative name servers for the .lt domain; and
 3. Ensure continued and stable domain name system interoperability with the global Internet.
4. ICANN is responsible for providing technical-coordination functions for the management of the system of unique identifiers of the global Internet, including the DNS. Among ICANN's responsibilities is to oversee operation of the Internet's Authoritative Root Server System. As part of ICANN's responsibilities ICANN enters and maintains data in the Authoritative Root database and generates updates of the root zone file.
5. ICANN:
 - a) Coordinates the allocation and assignment of the three sets of unique identifiers for the Internet, which are:
 1. Domain names (forming a system referred to as "DNS");
 2. Internet protocol ("IP") addresses and autonomous system ("AS") numbers; and
 3. Protocol port and parameter numbers.
 - b) Coordinates the operation and evolution of the DNS root name server system.
 - c) Coordinates policy development reasonably and appropriately related to these technical functions.

B. Mutual Recognition

1. **Recognition of DOMREG.** ICANN recognizes DOMREG as the manager, and the entity responsible for maintaining the .lt Top Level Domain, as a stable and interoperable part of the global domain naming system for the Internet in a manner that is consistent with Lithuanian national law and public policy and naming policy.
2. **Recognition of ICANN.** DOMREG acknowledges that ICANN is the entity responsible for maintaining and keeping the root of the Internet DNS stable and globally interoperable in a manner that is consistent with ICANN'S Mission and Core Values as reflected in its bylaws.

C. Commitments

1. Commitments of ICANN

ICANN shall use its best endeavours to:

- a) **Authoritative-Root Database** maintain a stable, secure, and authoritative publicly available database of relevant information about .lt, the Delegated country code Top Level Domain, in accordance with ICANN publicly available policies and procedures. At the start of this AF, the Authoritative Root Database shall contain information for the public authoritative name servers for .lt, contact information for .lt, the designated administrative contact(s), and the designated technical contact(s) as notified to ICANN;
- b) **Update of Name Server Information** implement on notification by the DOMREG a change to the domain name or IP address(es) of the name servers for .lt as recorded in the Authoritative-Root Data for .lt in the Authoritative – Root Database according to ICANN'S publicly available policies and procedures. The initial format and technical requirements for such a change are set out in ICANN'S publicly available policies and procedures;
- c) **Publication of Root-zone Whois information** publish data maintained in the Authoritative Root Database about .lt which shall include at least the names of DOMREG as the sponsoring organization, the administrative contact(s), the technical contact(s), and the domain names and IP addresses of the authoritative name servers for the domain;
- d) **Operation of Authoritative Root Server System** coordinate the Authoritative Root Server System so that it is operated and maintained in a stable and secure manner; and cause the Authoritative Root Server System to publish DNS resource records delegating the Top Level Domain .lt to the name servers recorded in the Authoritative Root Database and to inform the named administrative contact(s) and technical contact(s) of the published changes to the name servers for .lt.
- e) **Maintenance of Authoritative Records and Audit Trail** maintain authoritative records and an audit trail regarding changes to .lt delegations and records related to those delegations and shall inform DOMREG of the status of a requested change related to .lt in accordance with the policies, procedures and format as made publicly available by ICANN;
and
- f) **Notification of Contact Changes** notify DOMREG of any changes to ICANN's contact information no later than seven days after the change becomes effective.

2. Commitments of DOMREG

DOMREG shall use its best endeavours to:

- a) **Provision of zone data for .lt** generate regular updates of the .lt zone data in compliance with relevant standards as set out in paragraph c) and subject to and within the limits of relevant national law and national public policy.
 - b) **Provision of Name Service for .lt** operate and maintain the authoritative name servers for .lt in a stable and secure manner, adequate to resolve names within the .lt domain by users throughout the Internet in compliance with relevant standards as set out in paragraph c) and subject to and within the limits of relevant national law and national public policy.
 - c) **Applicable relevant standards** are standards-track or best current practice RFCs sponsored by the Internet Engineering Task Force.
 - d) **Accuracy and Completeness** of Information notify ICANN, through ICANN's designated point of contact of:
 1. any change of the contact information of its administrative or technical contact(s), and
 2. any change to the administrative and [or technical contact details about .lt in the Authoritative-Root Database no later than seven days after the change becomes effective. The administrative contact for .lt must be directly associated with DOMREG and must reside in the territory of the Republic of Lithuania during the entire period he or she is designated as such.
3. **Financial Contribution to ICANN.** DOMREG shall contribute to ICANN's cost of operations in the amount of USD \$10 000,00 per annum. The parties agree to review in good faith on the every anniversary of the date of AF, the contribution to ICANN set out above with a view to agreeing continued contributions by the ccTLD on an annual basis to ICANN's cost of operations. The review of the parties will take into account all relevant circumstances, including taking into account Guidelines for Voluntary Contributions of ccTLDs to ICANN as approved by the Country-Code Names Supporting Organization in November 2013.

D. Termination. This AF may only be terminated in the following circumstances:

1. there has been a determination by arbitration under Section D that a party is in violation of the AF and that party continues to behave in the same manner for a period stated in the arbitration decision, or if no period is stated, twenty-one days;
2. either party will not or is unable to perform its duties under the AF and has given written notice to such effect;
3. a party comes under legal restraint or receivership;
4. by mutual consent of the parties; or
5. by either party in the event that a re-delegation takes place, provided that in any re-delegation discussions the existence of this AF shall be taken into account.

E. Effects of Termination. All obligations under this AF shall cease, ICANN and DOMREG are still obligated to perform their duties in accordance with this AF to the extent this is within their powers and can be reasonably expected under the circumstances in order to maintain the stability and interoperability of the DNS.

F. No Liability. No breach of an obligation contained in this AF or performance or non-performance under this AF shall give rise to any monetary liability by one party to another.

G. Transfer or Assignment. No party may transfer, assign or sub-contract this AF or any of its obligations under this AF without the prior written consent of the other party.

H. Entire AF. This AF contains the entire agreement of the parties in relation to the subject matter contained within it. No variation of this AF shall be binding unless it is in writing and signed by both parties.

IN WITNESS WHEREOF the parties have caused this AF to be executed by their duly authorized representatives
