Total	\$680,150
-------	-----------

Request #	Community Group	Sub-group	Request Document Title	Request Description	Request Type Summary	Recommended Amount	Recommendation
FY15-01	GNSO	RySG	Travel support for ICANN meetings	Funding for four (4) additional RySG/Observer /NTAG participants for a total of seven (7) including the three allocated (or the RySG via the GNSO) for each of the three ICANN meetings in FY15. This will provide an opportunity for enrichment of members to not only participate in new gTLD and general RySG work sessions and meetings, but also in GNSO and other ICANN meetings. In addition, it would allow us to encourage participation from more diverse gTLD registries including registries from under-represented geographic regions and registries with new business models.	Travel & Meetings	\$42,000	The RySG was resourced with 2 additional travel slots in FY14 as a pilot effort and the feedback has been positive. Two(2) additional slots(for a total of 4) are granted for FY15. Travelers using the 2 additional slots must follow guidelines of ICANN Fellowship program. Fellowship staff will coordinate with RySG leaders to ensure that those guidelines are understood and followed.
FY15-02	SSAC	SSAC	Security and Stability Advisory Committee (SSAC) Meetings at IETF Meetings	Funding for audio/visual equipment rental, room rental, teleconference facilities, and dinner for approximately 20 SSAC members.	Travel & Meetings	\$10,000	This resource support has been successfully applied in the past and will be continued in FY15. Recommendation to become a core budget activity in FY16.
FY15-03	SSAC	SSAC	Security and Stability Advisory Committee (SSAC) Member Travel to ICANN Meetings	Travel funding for 15 SSAC members to attend 3 meetings in FY15 for a total of 45 slots that can be used for any combination of the ICANN meetings. Included in the 45 slots is funding for travel to 3 meetings for the SSAC Chair and Vice Chair. Note: The SSAC is specifically requesting that it may decide how to use the 45 slots and that unused slots from any meeting can be used for subsequent meetings in FY15.	Travel & Meetings	\$0	15 travel slots per each ICANN Public Meeting were made available to the SSAC in FY14 and this level of support will be continued in FY15. Due to substantial traveler support increases, meeting space planning and hotel room blocks arrangements, communities will not have the flexibility to reallocate unused slots to other public meetings throughout the year. Unused slots cannot be carried forward and will remain unused.
FY15-04	SSAC	SSAC	Security and Stability Advisory Committee (SSAC) Administrative Committee Face-to-Face Meetings	Expansion of admin F2F meetings sought from 2 on Public Meeting in DC to include 3 F2F at ICANN Public Meetings	Travel & Meetings	\$20,500	The SSAC has confirmed that these meetings are currently supported and this request does not reflect new services. The SSAC administration committee has made valuable use of the inter-session administrative meetings in Washington, D.C. Further, the meetings held prior to ICANN Public Meetings have been very low impact with basic room space for only a handful of people. Resources will continue in FY15 and consideration given to making this a core budget capability in FY16.
FY15-05	SSAC	SSAC	Security and Stability Advisory Committee (SSAC) Special Administrative Committee Face-to-Face Meeting for the Transition to the New Chair and Vice Chair	meeting to be held in Washington, DC to facilitate the transition from the outgoing SSAC Chair and Vice Chair whose terms end in 2014, and the incoming new Chair and Vice Chair, whose terms begin in 2015.	Travel & Meetings	\$0	The need for this meeting seems entirely dependent on SSAC leadership changes that may or may not take place. Staff is confident that if circumstances require this meeting to take place that resources can be found through other budget savings to conduct the meeting. No additional resources are being allocated for FY15.
FY15-06	SSAC	SSAC	Security and Stability Advisory Committee (SSAC) Travel for Internet Governance Forum Workshop	Funding for an SSAC member to travel to the IGF to support the workshop on security and stability issues at the IGF.	Travel & Meetings	\$2,750	Support for this activity will be dependent on confirmed approval for the proposed workshop by the IGF MAG.
FY15-07	GAC / GNSO	GAC/ GNSO	GAC – GNSO Liaison – Pilot Project	Fund 1) the GNSO liaison (member of the joint Consultation Group on GAC Early Engagement in Policy Development Processes aimed at developing mechanisms to encourage and facilitate earlier engagement of the GAC in GNSO Policy making) to attend the ICANN meetings in FY15 to be able to participate in GAC and GNSO meetings.	Travel & Meetings	\$10,450	This proposed pilot initiative is likely to help to address elements of ATRT2 Recommendations 6.1 and 10.2 to improve GAC transparency and to forge more collaboration between the GAC and the GNSO. As such it should be resourced and evaluated for effectiveness in FY15.
FY15-08	GNSO	GNSO Council	GNSO Council Development Session	Funding to organize another GNSO Council Development Session on Friday 17 October immediately following the ICANN meeting for the new Council to meet to conduct a strategic planning session that would foster co-operation within the GNSO Council as well as planning for ongoing and upcoming projects and activities	Travel & Meetings	\$40,000	The FY14 pilot effort conducted in Buenos Aires was determined to be very effective and should be continued as a pilot effort in FY15. Cost effectiveness efforts can be realized to deliver this service more efficiently in FY15. Effective implementation of this activity will help address concepts noted in ATRT2 recommendation 10 and this activity is a candidate for core budget in FY16.
FY15-09	GNSO	GNSO	GNSO PDP Working Group F2F Meetings – Pilot Project	Funding to develop a pilot project that would accommodate a facilitated face - to face (F2F) meeting of a GNSO PDP working group just before or after an ICANN Meeting. The F2F meeting would consist of a full - day meeting managed by a skilled facilitator aimed at making substantial progress in the WG's deliberations, which are normally conducted in the form of weekly 1-hour conference calls.	Travel & Meetings	\$120,000	ATRT2 recommendation 10.1 calls specifically for this type of endeavor and the activity merits a pilot effort at the three Public Meetings scheduled in FY15. Based on experience with the GNSO Council FY14 pilot meeting effort, cost efficiencies can be realized with this proposal.

Request #	Community Group	Sub-group	Request Document Title	Request Description	Request Type Summary	Recommended Amount	Recommendation
FY15-10	GAC	GAC	Support for GAC Travelers to the three (3) ICANN meetings	The GAC requests that the number of GAC travelers supported for FY15 be maintained at 30 per ICANN meeting. The GAC travel rules state that these funds should be available to low income economies. For FY15, like for FY14, 25 slots would be dedicated to representatives from GAC Members fitting that criterion, and 5 slots would be dedicated to observer organizations from developing regions.	Travel & Meetings	\$0	30 travel slots per ICANN Public Meeting were made available to the GAC in FY14 and this level of support will be continued in FY15. Due to substantial traveler support increases, meeting space planning and hotel room blocks arrangements, communities will not have the flexibility to reallocate unused slots to other public meetings throughout the year. Unused slots cannot be carried forward and will remain unused.
FY15-11	GNSO	NCUC	Workshops & related outreach at the IGF meeting in Istanbul, September 2014	Workshops & related outreach at the IGF meeting in support of global outreach and strategic engagement, particularly with noncommercial users and governments in the developing countries	Travel & Meetings	\$9,500	Pending acceptance by the IGF MAG of this program - support for 2 NCUC travelers is allocated. The support is different from the standard GNSO toolkit (conference call etc.).	Secretariat Support	\$0	See Item FY15-52 below. ICANN staff will provide part-time in-kind support on a pilot basis for administrative staff support resources to non-contracted GNSO communities (equivalent of approximately 12 hours a week of support). Funds will not be provided directly to the community. Support will be offered on a "functional" basis and managed by the ICANN staff (i.e., specific staff assigned to specific functions like elections, telephone support, etc.). Staff will coordinate specific points of contact for the community to ensure that requests for service are provided in a timely manner.
FY15-13	GNSO	NCSG	Printed Brochures for outreach effort	Brochures could be used by all NCSG members and in particular NCSG officers to hand out to people interested to join or otherwise participate in NCSG. It would briefly explain what NCSG is, what ICANN is, why someone would want to join, how. Such material was suggested by Stakeholder Engagement ICANN Staff to distribute it during their own outreach efforts.	Publications	\$0	See Item FY15-53 below. As a core function of community support printing and publishing of community outreach content will be managed by the Communications Dept. (within standard ICANN guidelines). Appropriate funds will be allocated to support community requests from all SO/AC communities. As noted in Item FY15-53, recommended resource for Communications Team is \$50K. Independent/unilateral community efforts will not be able to be resourced.
FY15-14	GNSO	NCSG	IGF Workshop for outreach purpose: "Developing countries participation in ICANN, GNSO case"	Outreach effort toward civil society outside ICANN including NGOs, academics, activists, through IGF workshop. Promoting ongoing policy discussion, non-commercial community involvement and community and leadership led globalization initiatives e.g. participation in NCSG and its constituencies, new gTLD policy matters from non-commercial standpoint.	Travel & Meetings	\$8,250	Pending acceptance by the IGF MAG of this program - support for 3 travelers (NCUC, NPOC and NCSG) is allocated. Travelers must agree to produce a trip report on what the support made possible - i.e., other work, mtgs. Travelers will be expected to give some support time to ICANN while at the IGF meeting (e.g., booth attendance, etc.)
FY15-15	GNSO	IPC	IPC Secretariat	To provide secretariat services in a professional manner, meeting all requirements of the organization including full independence and transparency and fulfilling the increasing administrative and support demands on the Constituency. As this activity was approved in FY14 budget for 12 hours per week for the IPC, this budget request is intended to build upon this approval and fund the IPC secretariat at the approved level through FY15.	Secretariat Support	\$0	See Item FY15-52 below. ICANN staff will provide part-time in-kind support on a pilot basis for administrative staff support resources to non-contracted GNSO communities (equivalent of approximately 12 hours a week of support). Funds will not be provided directly to the community. Support will be offered on a "functional" basis and managed by the ICANN staff. Travel & Meetings	\$0	See Item FY15-50 below. The Community Regional Outreach Pilot Program (CROPP) is renewed for a second year to allow for a full year of community experience and evaluation. Community outreach travel opportunities and initiatives are being funneled to this program and the requestor is advised to use that program to address this request. In FY15 the program will continue to allocate 5 trip opportunities for each of the ALAC RALOs and the GNSO non-contract Constituencies. Expanded resources will be allocated to permit longer trips and coverage of activity registration fees where appropriate.
FY15-17	GNSO	IPC	IPC website modernization	The IPC website is in need of modernization to allow for more efficient membership activities, interaction with the interested public, communication of ICANN events, and IPC efforts. The current toolkit provides for webhosting and other backend operations, but does not provide for modernizing the website or interface between IPC membership (and ICANN) and the public.	Other	\$0	In FY15 ICANN's digital engagement team is planning to collaborate with the community to develop "ICANN in a box" - a website template with preconfigured content and access to ICANN API for ICANN communities to use for their own web design purposes. This effort will be coordinated by staff.
FY15-18	GNSO	IPC	IPC leadership travel support to ICANN meetings.	Under its by-laws IPC has 4 elected officers and other appointed leadership roles. As a result, the IPC requests full travel support for 4 persons to each ICANN public meeting in FY 2015 as well as any inter-sessional meeting that may occur during FY 2015. In the absence of approval for 4 persons, the IPC requests that the traditional level of travel support for 3 persons be maintained for each ICANN public meeting in FY 2015 as well as any inter-sessional meeting that may occur during FY 2015.	Travel & Meetings	\$0	Previous pilot program to expand travel opportunities for GNSO leaders was deemed successful. Three leadership slots for each public meeting have become part of the core budget. This level of support will continue in FY15. Support for the proposed intersessional meeting is addressed in request FY15-24.

Other	\$0	The services described in the request pertain to the BC bank account management and accounting for which ICANN does not have fiduciary responsibility and can not take it over. However a long term solution needs to be determined by the BC to accommodate these services relative to the BC's bank account.

Request #	Community Group	Sub-group	Request Document Title	Request Description	Request Type Summary	Recommended Amount	Recommendation
FY15-30	GNSO	BC	Outreach Events	two or more outreach events. A Co-Organized event with local organization is a strong option. Other scenario is BC sponsoring and sending a speaker to a suitable existing event.	Outreach	\$10,000	This pilot was not fully developed in FY15. For FY15, staff wants to again explore the concept on a pilot basis. Staff will establish similar guidelines to CROPP. Perhaps the community can fashion a program that takes advantage of a single workshop/conference at one of the three ICANN public meetings and the remainder of the program can be built over time using a combination of ICANN meeting space and private sponsorship. See Item FY15-51 below for availability of pre-public meeting space.
