Dear Cherine Chalaby
Chairman, ICANN Board of Directors

We appreciate you taking the time to visit us. It was a pleasure and we look forward to future visits where we can spend more time together. ICANN is a critical organization in the development of ICT, and the leading organization in Internet development.

Regarding the membership of the Governmental Advisory Committee (GAC), we look forward to learning more, especially relating to the decision making process and the potential for majority vote. Osama Aldosary will be our contact point with Baher and Manal regarding the GAC.

Many thanks for the letter and the kind invitation to your upcoming ICANN meetings! unfortunately, I will not be able to attend, however my Deputy for Communication and Digital Infrastructure Abdullah AlKanhah will be attending on my behalf for the June meeting Inshallah.

Going forward we anticipate very productive and cooperative engagement.

With warm regards,

Abdullah Alswaha
Minister of Communications and Information Technology
