Subject: RDAP Pilot Report

Donna/Graeme,

In my role as Chair of the RDAP Pilot Working Group, I'm providing the attached RDAP Pilot Report document to you as the Chairs of the Registry Stakeholder Group and Registrar Stakeholder Group, respectively. This document is a consensus work product of the RDAP Pilot Working Group.

This document has been created by the contributions of various members of the WG. The document includes a summary of the RDAP Pilot activities and a full response to all comments received during the public comment period and the comments received (just prior to the public comment period) from ICANN Staff.

It is the WG's expectation that the doc will be provided to ICANN org for publication alongside other RDAP resources somewhere under https://www.icann.org/rdap.

Best regards,

Rick
