Dear Mr. Kumari,

I am writing to personally commend you for reporting the vulnerabilities that you discovered in the ICANN meeting registration kiosk system and in the ICANN org VoIP phone system. In keeping with our commitment to transparency, this information has been published on our ICANN [Cybersecurity Incident Log](#).

Thanks to you, these issues have been resolved without significant negative effects on ICANN org or the ICANN community. I encourage you and others to continue to responsibly report any issues you encounter in our systems by emailing [vulnerability@icann.org](mailto:vulnerability@icann.org).

With sincere appreciation,

Göran Marby
