Subject: ICANN Registrar Naming Services Portal Version 2.0

Dear Registrar,

The ICANN organization is currently developing version 2.0 of the Naming Services portal (NSp) for registrars. This second version will launch on **16 September 2019** (16:00 UTC) and will enable the registrar primary contact to access their contacts, manage contact roles, and authorize other credentialed users. In addition, all registrar contact data will be moved from RADAR to NSp. **RADAR will be retired and Naming Services portal will become the system of record.**

In preparation to gain access to the new portal, we kindly remind you to verify that your registrar's contact information is up to date in RADAR. Also, note that RADAR offers a field for you to add your RDAP URL.

If you have any questions or issues, contact ICANN Global Support at globalsupport@icann.org

Regards,
Russ Weinstein
Senior Director, gTLD Accounts and Services
Global Domains Division
ICANN
