Proposed Service

Name of Proposed Service:

Second Level IDN Support (FAMILY)

Technical description of Proposed Service:

Rightside would like to provide registration of domain names in additional IDN's to select sets of Rightside operated TLDs. Specifics: Rightside would like to add German and Chinese (ZH both simplified & Traditional) to the list of approved languages in the following Rightside operated TLD: <.FAMILY>. Note that these tables have been previously provided to and approved by ICANN and have passed Pre-Delegation Testing for other Rightside delegated TLDs. Examples: The German IDN table was approved and tested for <immobilien>. See attached the additional language tables in PDF form (the only format supported by the online RRS procedure)

Benefits of Service

Describe the benefits of the Proposed Service:

The increase in available languages for domain name registration provides registrants the ability to register domain names that are more meaningful and specific to the region in which they live and operate. By providing the opportunity to register domain names in additional languages, Rightside seeks to broaden consumer choice in the world marketplace.

Competition

Do you believe your proposed new Registry Service would have any positive or negative effects on competition? If so, please explain.:

Allowing Rightside to provide these additional IDNs will result in a gTLD registry operator that can more fairly compete in the global market. Note that legacy TLD registry operators have been permitted to offer IDNs for their TLDs without the need for an official request.

How would you define the markets in which your proposed Registry Service would compete?:
